OOH LA LA! THREE AND DREI WINNERS OF OOKLA SPEED TESTS

3 Austria has once again been crowned the fastest 5G mobile network in Austria at Ookla's annual ranking of mobile phone companies measured by their upload and download speeds for customers. Continuing its winning ways, **3** Ireland reigns supreme as the fastest provider on the Emerald Isle for both fastest mobile network and fastest 5G network. The increased caseload from the COVID-19 pandemic couldn't slow them down during the measurement period in the first half of 2021. Ookla is the global leader in fixed broadband and mobile network testing applications, data and analyses.
